Project Website

Edited by POLIMI:

Francesco Zurlo, Arianna Vignati,
Alessia Cappellini, Federico Cauro, Michele Melazzini
WP 2 _ Deliverable N° 2.2.1 _ June 2015

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 644988.

HOME PAGE

<http://www.creasummeracademy.eu/>

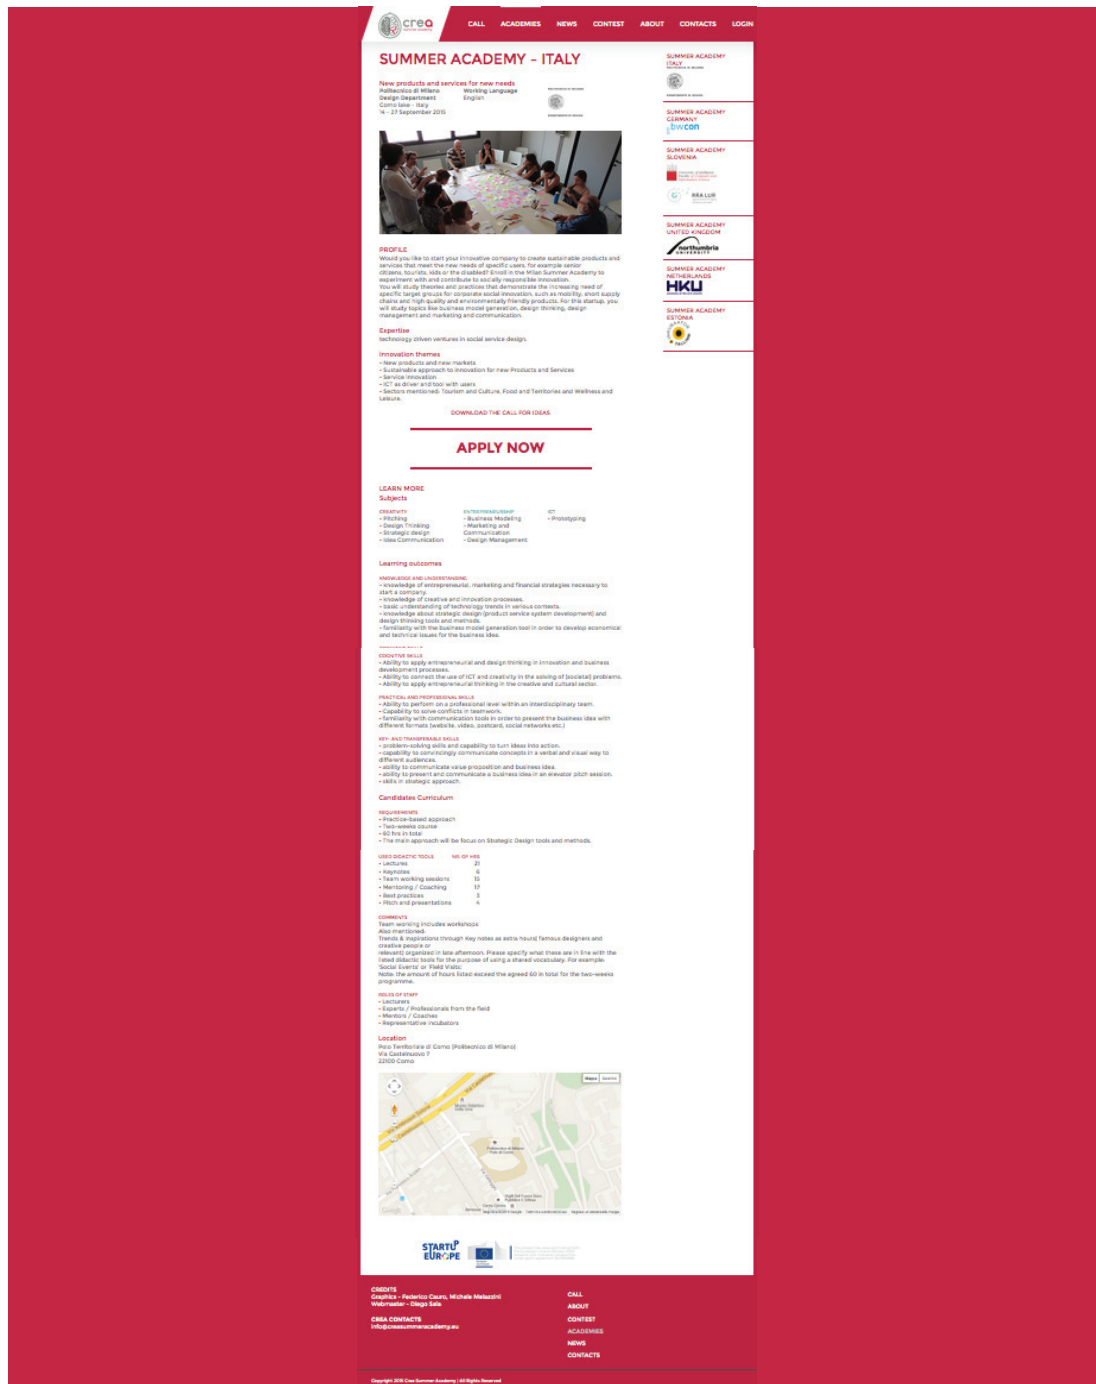

The screenshot shows the homepage of the CREA Summer Academy website. The header includes the CREA logo and navigation links: CALL, ACADEMIES, NEWS, CONTEST, ABOUT, CONTACTS, LOGIN. The main content area is titled "Creativity & ICT for new entrepreneurship" and "6 countries - 6 academies - summer 2015". A prominent section titled "THE CALL IS OPEN" asks if the user is a creative student, has an amazing idea, can change the future through ICT, or wants to become an entrepreneur. Below this is a circular diagram with six steps: 1. DO YOU HAVE A BUSINESS IDEA?, 2. CHOOSE YOUR SUMMER ACADEMY IN EUROPE, 3. PRESENT YOUR IDEA, 4. ATTEND TRAINING SESSION, 5. MONITORING, and 6. WIN IN FRONT OF INVESTORS. A "APPLY NOW" button is present, with a note that students, PhD candidates, and post-docs from European universities can apply. The "SUMMER ACADEMY" section describes CREA's goal to support innovative ideas combining entrepreneurship with ICT and creativity. It details the "SHARED APPROACH" where students work in a real context, applying knowledge to business modeling, planning, design, and market research. A map of Europe shows the locations of the six summer academies. A "DOWNLOAD THE CALL FOR IDEAS" button is available. A "NEWS" section mentions a call for projects for the 2015 summer academy. The footer includes credits for graphics, text, and design, CREA contact information, and a list of navigation links. Logos for STARTUP EUROPE and the European Commission are also present.

SUMMER ACADEMY - ITALY

http://www.creasummeracademy.eu/?page_id=86

The screenshot displays the 'SUMMER ACADEMY - ITALY' webpage. The header includes navigation links: CALL, ACADEMIES, NEWS, CONTEST, ABOUT, CONTACTS, and LOGIN. The main content area features a 'New products and services for new needs' section with details on the application process, including a deadline of 27 September 2020. A 'PROFILE' section describes the program's focus on innovation and social impact. A 'DOWNLOAD THE CALL FOR IDEAS' button is prominently displayed. Below this, an 'APPLY NOW' section is visible. The 'LEARN MORE' section lists subjects like Creativity, Design Thinking, and Strategic Design, along with learning outcomes. A 'CANDIDATE CURRICULUM' section details requirements, selection criteria, and the program structure, including a map of the location in Cernusco sul Naviglio, Milan. The footer contains contact information, a list of partners (STARTUP EUROPE, European Commission, etc.), and a copyright notice for 2020.

SUMMER ACADEMY - GERMANY

ENTREPRENEURSHIP FOR ICT DRIVEN INNOVATION
Focus on innovation driven by ICT in traditional industries
Business Goals: Working Language: English
Technology and innovation for: Business Development
Lake Constance, Germany
7-18 September 2019

In cooperation with:

PROFILE
Would you like to start your innovative company to influence and change the traditional industries with new technological solutions and applications? Enroll in the Lake Constance Summer Academy to gain entrepreneurial skills and solid knowledge on how to build and launch the products or services of your high tech startup.

You will study theories and practices that you immediately apply to develop your business and products based on the new start-up methodology. As this stands, you will study topics like business model generation, marketing and communication, access to finance and intellectual property management.

Expertise
technological driven ventures in the traditional industries.

Innovation Themes

- Technology and emerging digital innovation
- Entrepreneurship for ICT driven innovation

DOWNLOAD THE CALL FOR IDEAS

APPLY NOW

LEARN MORE

Subjects

- Business
- Marketing
- Design Thinking

Entrepreneurship

- Business Model
- Finance
- Marketing and Communication
- Lean start-up method
- Research - customer development, MVP
- Effectuation

ICT

- Prototyping
- ICT driven innovation
- Internet of Things
- Robotics/Smart Home/ Drones
- Manufacturing / 3D Printing
- Modality / Big Data

Learning outcomes
By attending the Summer Academy on Lake Constance you will gain understanding of all the business basics necessary to start a company. You will get a good overview of product development, marketing strategy, financing and accounting. You will be able to understand technology trends and properly identify their impact.

competences and understanding

- Knowledge of entrepreneurial, marketing and financial strategies necessary to start a company
- Good understanding of technology trends in various contexts

competence goals

- Ability to apply entrepreneurial and design thinking in innovation and business development processes
- Ability to connect the use of ICT and creativity in the solving of business problems
- Ability to apply the Lean Start-up approach and tools to a concrete business case

PRACTICAL AND PROFESSIONAL SKILLS
In particular, you will apply the Lean Start-up approach and tools to a concrete business case. At the end of the two weeks you will be able to analyse a given market and conduct research for a specific product/service. You will be able to identify the right customer segment and develop a go-to-market strategy to target it. You will understand how to develop hypotheses for a business and test it by means of minimum viable products. Finally, you will define an appropriate business model and recognise on time the need for business model innovation.

Ability to perform the role of entrepreneur in a business development process critically and creatively

- Ability to identify and evaluate opportunities and risks and adapt to changing needs and challenges
- Ability to perform on a professional level within an interdisciplinary team

KEY TAKEAWAYS/RESEARCH
Moreover, through the Summer Academy you should be able to develop an entrepreneurial mindset and be able to use it to successfully manage a business team and sharpen your problem-solving skills. You will work on your communication skills in order to convince people of your idea. Finally, you will have the chance to network with other students, entrepreneurs and experts of the ICT field.

problem-solving skills and capability to turn ideas into action

- Ability to develop technology partnerships connected to a vertical and virtual network of stakeholders

Candidates Curriculum

SUMMER ACADEMY - SLOVENIA

http://www.creasummeracademy.eu/?page_id=113

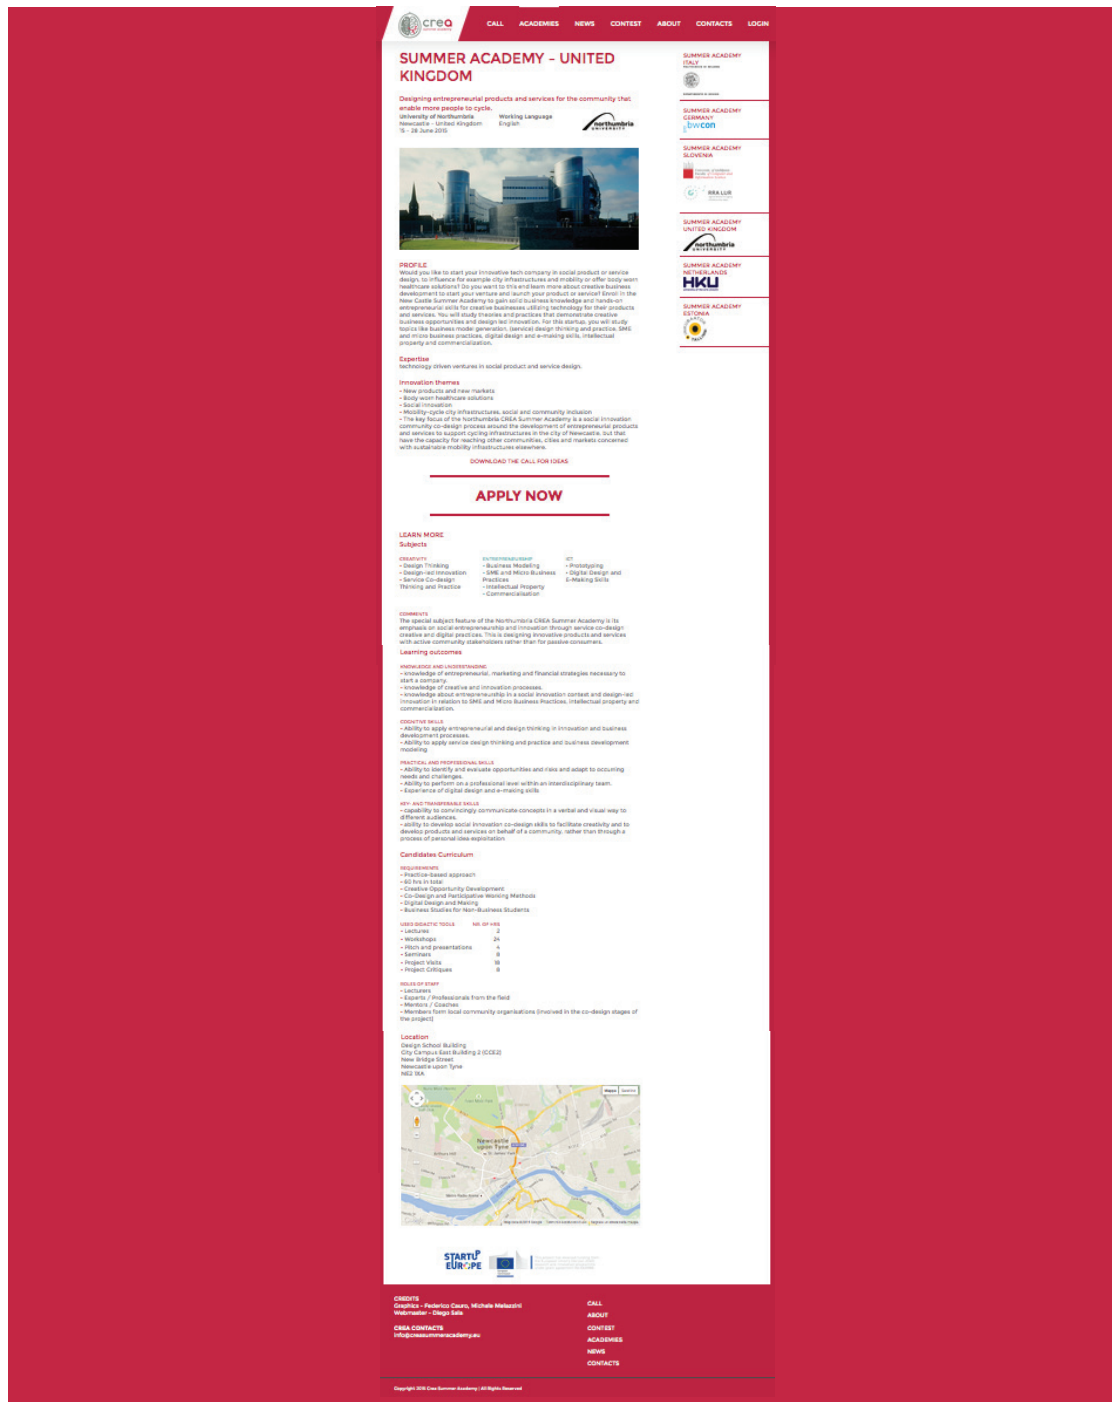

The screenshot displays the 'SUMMER ACADEMY - SLOVENIA' webpage. The header includes navigation links: CALL, ACADEMIES, NEWS, CONTEST, ABOUT, CONTACTS, and LOGIN. The main content area features a title 'SUMMER ACADEMY - SLOVENIA' and a subtitle 'CITIES OF THE FUTURE THROUGH SERVICE INNOVATION'. It provides details about the University of Ljubljana, Faculty of Computer and Information Science and Business Development, and the Academy of Ljubljana Urban Region (RAA LUR). The dates for the first session are 12-22 July 2015, and for the second session, 28th September 2015. A photo shows a group of people in a meeting. The 'PROFILE' section describes the goal of starting an innovative company. The 'Expertise' section lists service design, prototyping, ICT, creativity, and entrepreneurship. The 'Innovation themes' section lists new products, generic themes, service innovation, and technology. The 'APPLY NOW' button is prominent. The 'LEARN MORE' section lists subjects like Design Thinking, Service Design, and Business Model Development. The 'Learning outcomes' section lists knowledge of entrepreneurship, innovation processes, and design thinking. The 'Candidate Curriculum' section lists a practice-based approach, 60 ECTS, and a mix of on-site and off-site activities. The 'LOCATION' section provides the address of the University of Ljubljana. The footer includes logos for STARTUP EUROPE and the European Commission, and a copyright notice for 2015 Crea Summer Academy.

SUMMER ACADEMY - UNITED KINGDOM

http://www.creasummeracademy.eu/?page_id=126

SUMMER ACADEMY - UNITED KINGDOM

Designing entrepreneurial products and services for the community that enable more people to create.
University of Northumbria
Newcastle - United Kingdom
15 - 20 June 2015

Working Language: English

PROFILE
Would you like to start your innovative technology in social product or service design, to influence for example city infrastructures and mobility or offer body worn healthcare solutions? Do you want to find and learn more about creative business development to start your venture and launch your product or service? Enroll in the New Castle Summer Academy to gain real business knowledge and hands-on entrepreneurial skills for creative businesses, utilizing technology for their products and services. You will study theories and practices that demonstrate creative business opportunities and design-led innovation. For the details, you will study topics like business model generation, service design thinking and practice, SMEs and micro business practices, digital design and e-making skills, intellectual property and commercialisation.

Expertise
technology (often ventures in social product and service design).

Innovation themes
• New products and new markets
• Body worn healthcare solutions
• Social innovation
• Mobility (e.g. city infrastructures, social and community inclusion)
• The key focus of the Northumbria CREA Summer Academy is a social innovation community co-design process around the development of entrepreneurial products and services to support city regeneration in the city of Newcastle. We do this have the capacity for reaching other communities, cities and markets concerned with sustainable mobility infrastructure elsewhere.

--	--	--

COMPONENTS
The special subject feature of the Northumbria CREA Summer Academy is its emphasis on social entrepreneurship and innovation through service co-design, creative and digital practices. This is designed innovative products and services and active community stakeholders rather than for passive consumers.

Learning outcomes

INTELLECTUAL AND UNDERSTANDING
• Knowledge of entrepreneurial, marketing and financial strategies necessary to start a company.
• Knowledge of creative and innovation processes.
• Knowledge about entrepreneurship in a social innovation context and design-led innovation in relation to SMEs and Micro Business Practices, intellectual property and commercialisation.

COGNITIVE SKILLS
• Ability to apply entrepreneurial and design thinking in innovation and business development processes.
• Ability to apply service design thinking and practice and business development mapping.

PRACTICAL AND PROFESSIONAL SKILLS
• Ability to identify and evaluate opportunities and risks and adapt to occurring needs and challenges.
• Ability to perform as a professional level within an interdisciplinary team.
• Experience of digital design and e-making skills.

ATTITUDE AND PERSONALITY SKILLS
• Capability to communicate concepts in a verbal and visual way to different audiences.
• Ability to develop social innovation co-design skills to facilitate creativity and to develop products and services on behalf of a community, rather than through a process of personal idea exploration.

Candidates Curriculum

Objectives
• Practice based approach
• 60 days to test
• Creative Opportunity Development
• Co-design and Participative Learning Methods
• Digital Design and Making
• Business Models for New Business Students

LEARNER EDUCATION TOOLS

SUMMER ACADEMY - ESTONIA

Creativity and ICT for new entrepreneurship
Tallinn
Business incubator
Tallinn Estonia
17 - 28 August 2020

PROFILE
Are you interested in combining technology with design disciplines, perhaps to address social needs or to overcome challenges in either the traditional or creative sectors? Do you have ideas for new or improved products and services? Or inventive solutions on how these can be better designed or delivered?
Summer Academy in Tallinn you will work on your idea in a very hands-on way, using a goal-driven practical approach based on the User-Startup Methodology. You will build-on your own ideas how to validate the customer problem and study topics such as business modelling, marketing and strategy.
Thinking about the value of your idea.

Expertise
Goal-driven business development for technological and creative ventures.

Innovation themes
• Social innovation
• Service innovation
• Technology and meaning-driven innovation

ABOUT CREA

http://www.creasummeracademy.eu/?page_id=31

The screenshot shows the 'ABOUT CREA' page of the CREA Summer Academy website. The page has a red header with a navigation menu: CALL, ACADEMIES, NEWS, CONTEST, ABOUT, CONTACTS, LOGIN. Below the header, the main content area is white with a red border. It features a diagram showing the flow from 'Summer academy' to 'Mentoring and Prototyping' to 'ICT business idea contest'. The text describes CREA as a European Network of Summer Academies for the development of innovative business ideas. It outlines the three main components: Summer academy, Mentoring and Prototyping, and ICT business idea contest. The page also mentions that the program is free of charge and includes travel and accommodation. At the bottom, there is a 'DETAILS' section with a diagram showing the network of partners and a list of partners including Politecnico di Milano, ENM Italy, BYCON gmbh, University of the Aegean, HKU - University of the Arts Utrecht, and others. The footer includes contact information and a copyright notice.

ABOUT CREA

A European Network of Summer Academies for the development of innovative business ideas focused on Creativity and ICT and a Business Idea Contest to bring closer investors, business angels and start-ups.

Summer academy
You get an insight of what is needed to be an entrepreneur and to found a start-up. At the end of the two weeks programme, a qualified jury selects the two best business ideas emerging from each national Summer Academy which can participate in the CREA International Business Idea Contest.

Mentoring and Prototyping
If you are selected you and your team keep developing your idea in the following months. Doing so, you receive support through online mentoring. Between October and November 2015 you are invited to a Rapid Prototyping Event to develop a first prototype of your idea.

ICT business idea contest
Finally you can participate in the CREA International Business Idea Contest and are given the opportunity to pitch your idea in front of possible investors. Winning participants have the chance to be introduced to incubators all over Europe.

read more

And the best is yet to come. In CREA we like to give everybody the chance to become a successful entrepreneur. Thanks to the support of the European Commission CREA Summer Academies are free of charge!
You only pay for your travel and accommodation.

DETAILS

crea **academies** **contest**

crea is a network of European Summer Academies focusing on Entrepreneurship driven by ICT and Creativity. The Academic and business perspective converge in CREA through a partnership among European Universities, incubators, Regional Development Agencies and Business Support initiatives. This union makes the CREA Summer Academy something unique in its kind. Students from all Europe can apply for the CREA Summer Academy program at leading universities in UK, Italy, Estonia, Slovenia, Holland and Germany and learn about entrepreneurship while concretely developing their business idea.

Politecnico di Milano
Design Department (supported by Fondazione Politecnico di Milano) is the lead partner of the CREA project that involves a network of 9 institutions from 8 European countries.
